ACRONYM DIGITAL SDN. BHD.

100-3.001, Block J, 129 Offices, Jaya One,
72A, Jalan Profesor Diraja Ungku Aziz,
46200, Petaling Jaya,
Selangor Darul Ehsan, Malaysia.

Dear Hiring Team,

I am writing to express my strong interest in the *Senior Front End Engineer* position at Acronym Digital, which I saw advertised on JobStreet. With over 9 years in full-stack web development with a significant front-end focus, my expertise aligns well with your front-end requirements, and my background in Computer Games Design makes your focus on HTML5 games particularly exciting.

My experience includes a strong proficiency in HTML, CSS, and JavaScript, with practical application of modern frameworks such as Vue.js and Tailwind. I am experienced in integrating RESTful APIs, developing responsive interfaces, and optimizing web performance and technical SEO.

Beyond technical skills, I offer experience in team collaboration, mentoring junior developers, and providing technical solutions in client/brainstorming sessions. My passion for continuous learning extends to areas like creative coding, design practices, Linux, and DevOps, adding a valuable dimension to my profile.

I am excited and confident that my blend of extensive front-end experience, proven results, collaborative spirit, and relevant background would be a strong asset. Thank you for considering my application. I look forward to discussing how my background and enthusiasm fit with your team.

Sincerely,
Yong Zheng Hong (Jasper)
